

# HKIT COURSE ANALYZER DEMO

INTERACTIVE TOOL SHOWCASING  
COURSE DATA INSIGHTS

BY

*STEVEN KOK (THE AI GUY)*

# WELCOME & PROJECT OVERVIEW

[illegible]

*AI reduces exemption analysis time to 30 seconds, ensuring consistent decisions and program alignment.*

*The system automatically generates official documents,  
significantly lowering administrative burden.*

*Technology supports educators by freeing time to focus on student counseling and success.*

LIVE DEMO – SEE  
IT IN ACTION

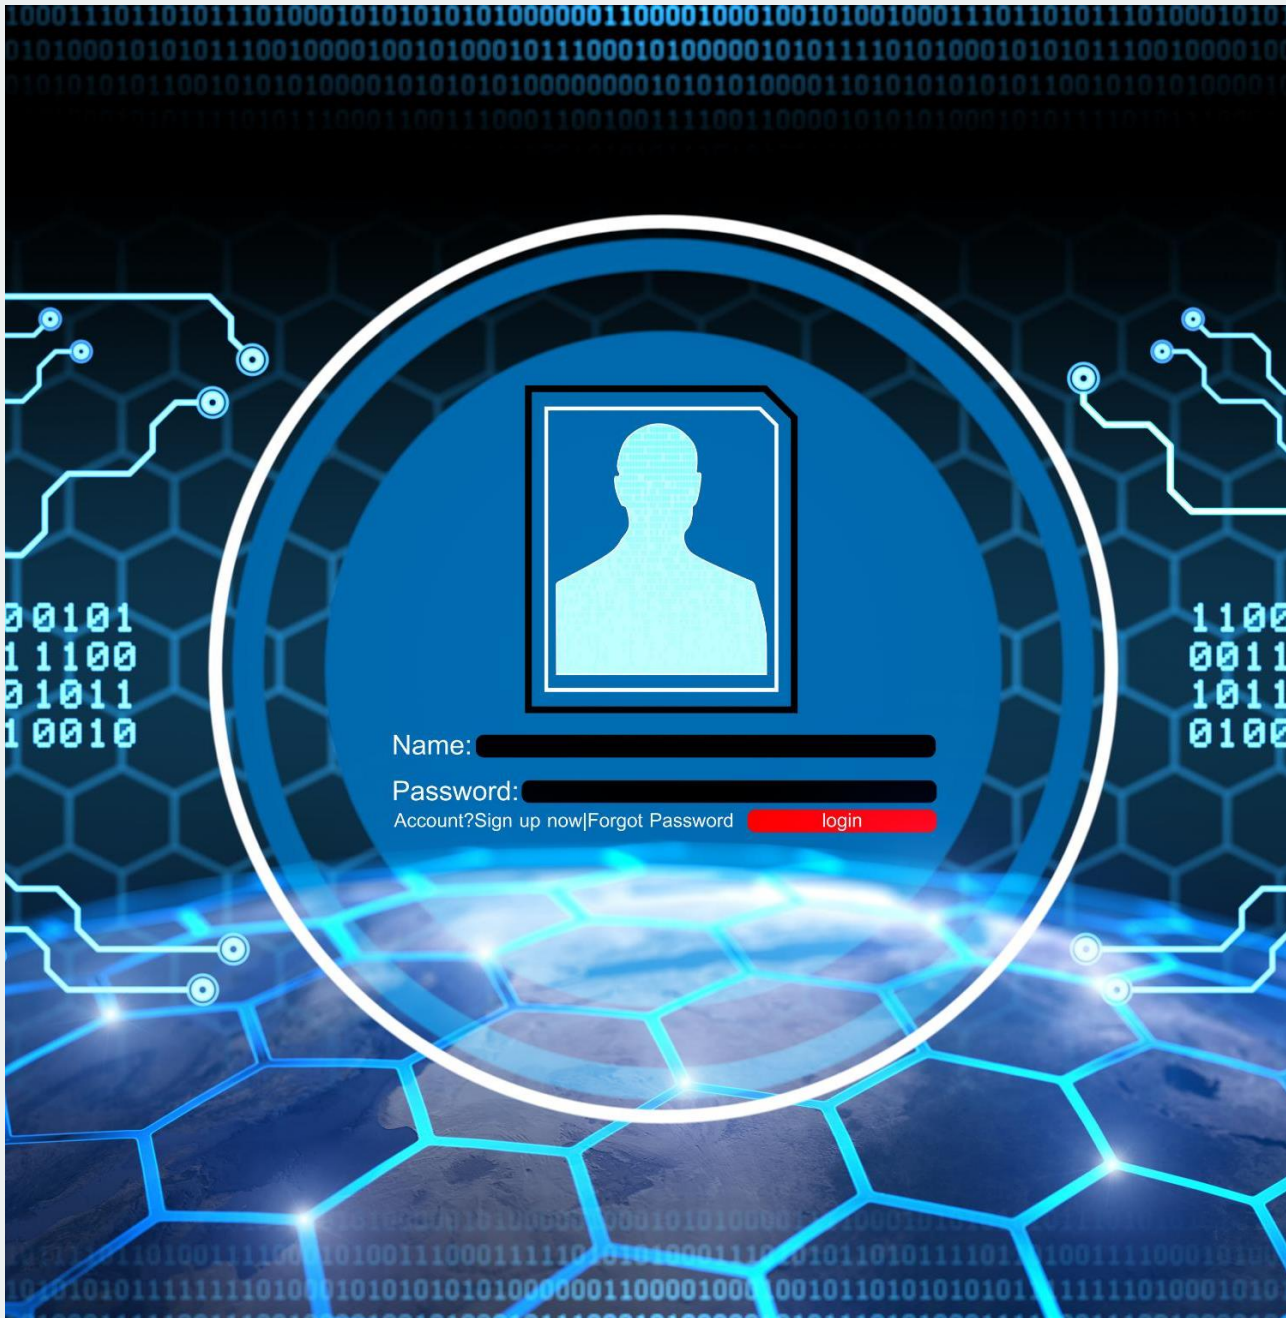

YOUR CONTROL,  
ENHANCED BY AI

# TECHNOLOGY THAT RESPECTS YOUR EXPERTISE

## User Control and Expertise

*Users retain full authority over decisions, with AI providing editable and overridable suggestions to support expertise.*

## Efficiency and Time Savings

*The system reduces application processing time significantly, from three hours down to five minutes per review.*

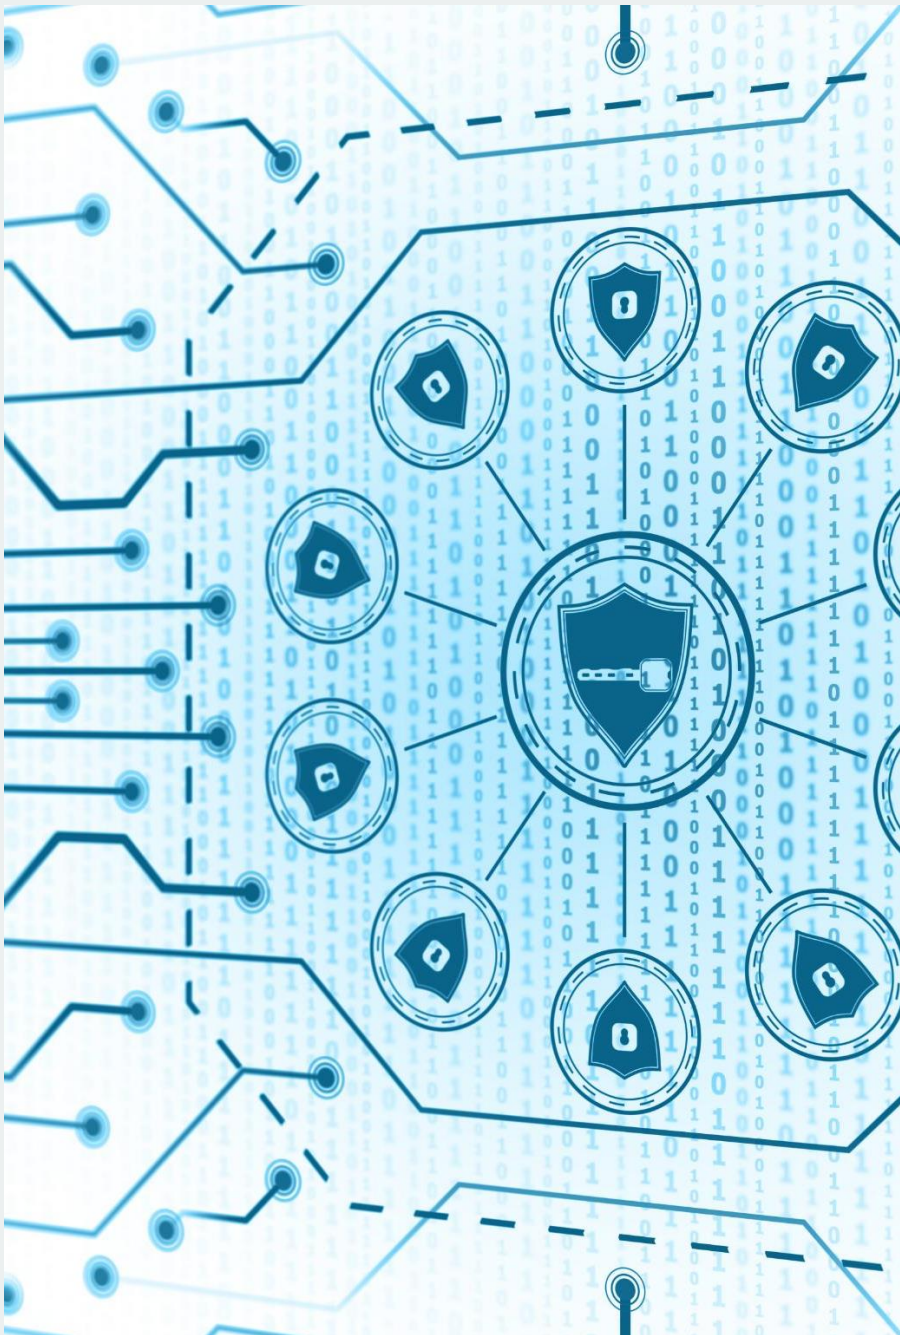

## Balance of Automation and Oversight

*Technology supports professional judgment and fairness, reinforcing the educator's central role in decision-making.*

# DATA SECURITY & PRIVACY

# YOUR STUDENT DATA IS PROTECTED

## Enterprise-grade Security

*HKIT Course Analyzer uses Google certification and bank-level encryption to secure data in transit and at rest.*

## Local Processing Safeguards

*API keys and student data are stored and processed locally, never leaving the user's computer or external servers.*

## Automatic Data Deletion

*All user data is automatically deleted within 55 days and cleared upon closing the browser, ensuring no permanent storage.*

## Improved Data Privacy

*Compared to manual paper processes, the Analyzer offers controlled digital access with no permanent copies made.*

YOUR FEEDBACK  
MATTERS

# HELP US MAKE THIS PERFECT FOR YOU

## Importance of User Feedback

*User feedback is essential to improve ease of use, accuracy, completeness, and overall usefulness of the system.*
